

Fishskin® Bugs™

The Most Versatile Baitfish Imitation Ever

The Bug was originally designed by a fly fisherman using scraps of our Fishskin skirt material and proved deadly. It is also effective as a dropper in front of a plug for stripers, as a lure behind a “flasher” for salmon or cast alone with light spinning tackle for almost anything. The Bug has caught more than 50 different game fish species in fresh and salt water.

3-Dimensional Eyes

Length: 5" Approx.

Soft Fishskin Head

High Quality,
Precision Crafted

Fishskin® Material

Tough and reflective with holographic glitter. All Fishskin colors refract light in the blue/violet spectrum that gamefish see best.

Weight 1/8 Oz.

3/0 Stainless
Steel Hook

(Actual Size)

Fishskin Bugs can be trolled, jigged, spin cast or fly cast.

Constructed using proprietary Fishskin material. Fishskin Bugs will stand up to the abuse gamefish give them, yet remain soft and pliable for optimum action and attraction. Fishskin Bugs are tied on 3/0 stainless steel hooks. They measure about 5 inches, weigh 1/8 ounce and come in 9 different color patterns. Fishskin Bugs are irresistible to all saltwater gamefish, albacore, sea trout, stripers, kingfish, wahoo, dorado, yellowtail, bass, muskie and pike.

Strike Proven Colors Available
