

Pro-Magnum™ Rigging Components

Pro-Magnum rigging components feature a welded, stainless steel ring and indestructible DELRIN® grommet-shaped like a miniature grooved wheel for attaching line or leader. The design creates the strongest connections possible with crimps or knots while eliminating the need for chafing gear like thimbles or loop protectors. Pro-Magnum Ball Bearing Ring Swivels and Ball Bearing Snap Swivels are the strongest, highest quality made and are Teflon® coated, not painted like inferior brands.

Pro-Magnum™ Ball Bearing Ring Swivel

with 2 Welded Rings and Delrin Grommets
Available in 4 sizes, sold with
Magnum Ring & Grommet in same package.

PMR-5 - 200 lb Capacity;

2 pieces sold with 4 MGR
(Magnum Ring & Grommet)

PMR-7 - 450 lb Capacity;
1 piece sold with 2 MGS
(Super Magnum Ring & Grommet)

PMR-8 - 550 lb Capacity;
1 piece sold with 2 MGS
(Super Magnum Ring & Grommet)

MAGNUM RING & GROMMET

Magnum Ring & Grommet provides a fail-safe connection. Plus, easy attachment of snap swivels. The Grommet is produced from black Delrin, an engineering plastic, that will not corrode and prevents leader chafing. The Ring is manufactured from aircraft grade 302 stainless steel and is welded closed. The Magnum Ring & Grommet, like a miniature-grooved wheel, accepts leaders up to 500 pounds. The Super Magnum Ring & Grommet accepts leaders up to 900 pounds.

Item#	Description	Leader Size
MGR	Magnum Ring & Grommet	500 lb. max.
MGS	Super Magnum Ring & Grommet	900 lb. max.

Pro-Magnum™ Ball Bearing Snap Swivel

with 2 Welded Ring and Delrin Grommet
