

Lip-Latch™ Hook Sets

The Ultimate Hook Sets for Offshore Trolling Lures

Pro-Magnum™ Tandem Hook

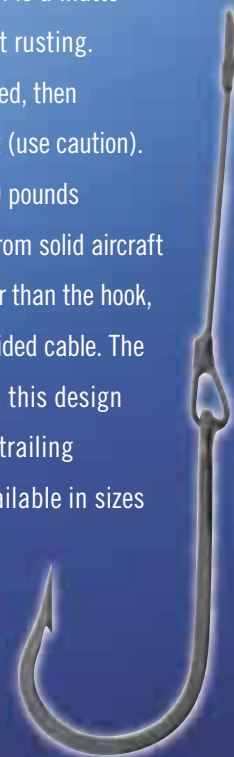

Tournament grade Tandem Hooks are matte black & Teflon®-coated for fast, friction-free penetration, in addition to preventing rust. The Mustad hooks are forged and tempered, then presharpener to a micro-knife edge point (use caution). The connecting link is rated at over 1,000 pounds breaking strength and is manufactured from solid aircraft grade 302 stainless steel. This is stronger than the hooks, plus it is not subjected to fraying like braided cable. The large link eye allows the trailing hook to run straight without cocking. Welded oversized stainless steel ring with Derlin® grommet ensures a secure and chaff free leader. Connection available in sizes 7/0, 8/0, 9/0, 10/0, 11/0, and 12/0.

Color	Size	Item #
Black Teflon®- Coated	7/0	PMTR-7
	8/0	PMTR-8
	9/0	PMTR-9
	10/0	PMTR-10
	11/0	PMTR-11
	12/0	PMTR-12

Lip-Latch™ Stiff Rig

Tournament grade Stiff Rig hook is Teflon-coated for fast, friction-free penetration. The finish is a matte-black Teflon® coating that helps prevent rusting. The Mustad hooks are forged and tempered, then presharpener to a micro-knife edge point (use caution). The connecting link is rated at over 1,000 pounds breaking strength and is manufactured from solid aircraft grade 302 stainless steel. This is stronger than the hook, plus it is not subjected to fraying like braided cable. The stainless link is welded at the hook eye; this design allows the hook to return to its original trailing position in event of a missed strike. Available in sizes 7/0, 8/0, 9/0, 10/0, 11/0, and 12/0.

Color	Size	Item #
Black Teflon®- Coated	7/0	LLSR-1
	8/0	LLSR-2
	9/0	LLSR-3
	10/0	LLSR-4
	11/0	LLSR-5
	12/0	LLSR-6

All welded construction. Teflon® coated for quick hook penetration and corrosion resistance.
