The bucktail jig is an incredibly versatile lure, but it took ProFishCo to make it even more deadly. The FISHSKIN JIG features a lifelike head which is perfectly balanced on a super-sharp, premium quality hook to allow the jig to sail through the water more closely mimicking the swimming action of a live baitfish. It is dressed with a combination of natural bucktail and two types of Fishskin material. The sides and back are reflective with a scale pattern. The belly is luminescent so it glows even in the darkest water. The FISHSKIN JIG is a great improvement on an old favorite. Try it and it's sure to become your new favorite.
